Welcome to the second edition of the *WORD BY WORD Picture Dictionary*! This text presents more than 4,000 vocabulary words through vibrant illustrations and simple accessible lesson pages that are designed for clarity and ease-of-use with learners at all levels. Our goal is to help students practice English used in everyday life, in the community, in school, at work, and in international travel.

WORD BY WORD organizes the vocabulary into 17 thematic units, providing a careful research-based sequence of lessons that integrates students' development of grammar and vocabulary skills through topics that begin with the immediate world of the student and progress to the world at large. Early lessons on the family, the home, and daily activities lead to lessons on the community, school, workplace, shopping, recreation, and other topics. In addition to developing students' vocabulary, the text also serves as a comprehensive communication skills program that integrates vocabulary learning, listening and speaking skills, and themes for writing and discussion. The Scope & Sequence on the previous pages illustrates the unique curriculum and skills integration in the program.

Since each lesson in *Word by Word* is self-contained, it can be used either sequentially or in any desired order. For users' convenience, the lessons are listed in two ways: sequentially in the Table of Contents, and alphabetically in the Thematic Index. These resources, combined with the Glossary in the appendix, allow students and teachers to quickly and easily locate all words and topics in the Picture Dictionary.

The *Word by Word Picture Dictionary* is the centerpiece of the complete *Word by Word Vocabulary Development Program*, which offers a wide selection of print and media support materials for instruction at all levels.

Workbooks at different levels offer flexible options to meet students' needs. Vocabulary Workbooks at Beginning and Intermediate levels feature motivating vocabulary, grammar, and listening practice. A Literacy Workbook provides all-skills practice especially appropriate for learners who are not familiar with the alphabet or who need a pre-Beginning-level introduction to English vocabulary, reading, and writing.

The Teacher's Guide and Lesson Planner with CD-ROM includes lesson-planning suggestions, community tasks, Internet weblinks, and reproducible masters to save teachers hours of lesson preparation time. An Activity Handbook with step-by-step teaching strategies for key vocabulary development activities is included in the Teacher's Guide.

The Audio Program includes all words and conversations for interactive practice and—as bonus material—an expanded selection of WordSongs for entertaining musical practice with the vocabulary.

Additional ancillary materials include Color Transparencies, Vocabulary Game Cards, a Testing Program, and ExamView CD-ROM. Bilingual Editions are also available.

Teaching Strategies

Word by Word presents vocabulary words in context. Model conversations depict situations in which people use the words in meaningful communication. These models become the basis for students to engage in dynamic, interactive practice. In addition, writing and discussion questions in each lesson encourage students to relate the vocabulary and themes to their own lives as they share experiences, thoughts, opinions, and information about themselves, their cultures, and their countries. In this way, students get to know each other "word by word."

In using *Word by Word*, we encourage you to develop approaches and strategies that are compatible with your own teaching style and the needs and abilities of your students. You may find it helpful to incorporate some of the following techniques for presenting and practicing the vocabulary in each lesson.

- 1. Preview the Vocabulary:** Activate students' prior knowledge of the vocabulary by brainstorming with students the words in the lesson they already know and writing them on the board, or by having students look at the transparency or the illustration in *Word by Word* and identify the words they are familiar with.
- 2. Present the Vocabulary:** Using the transparency or the illustration in the Picture Dictionary, point to the picture of each word, say the word, and have the class repeat it chorally and individually. (You can also play the word list on the Audio Program.) Check students' understanding and pronunciation of the vocabulary.

3. **Vocabulary Practice:** Have students practice the vocabulary as a class, in pairs, or in small groups. Say or write a word, and have students point to the item or tell the number. Or, point to an item or give the number, and have students say the word.

4. **Model Conversation Practice:** Some lessons have model conversations that use the first word in the vocabulary list. Other models are in the form of skeletal dialogs, in which vocabulary words can be inserted. (In many skeletal dialogs, bracketed numbers indicate which words can be used for practicing the conversation. If no bracketed numbers appear, all the words in the lesson can be used.)

The following steps are recommended for Model Conversation Practice:

- a. Preview: Have students look at the model illustration and discuss who they think the speakers are and where the conversation takes place.
- b. The teacher presents the model or plays the audio one or more times and checks students' understanding of the situation and the vocabulary.
- c. Students repeat each line of the conversation chorally and individually.
- d. Students practice the model in pairs.
- e. A pair of students presents a conversation based on the model, but using a different word from the vocabulary list.
- f. In pairs, students practice several conversations based on the model, using different words on the page.
- g. Pairs present their conversations to the class.

5. **Additional Conversation Practice:** Many lessons provide two additional skeletal dialogs for further conversation practice with the vocabulary. (These can be found in the yellow-shaded area at the bottom of the page.) Have students practice and present

these conversations using any words they wish. Before they practice the additional conversations, you may want to have students listen to the sample additional conversations on the Audio Program.

6. **Spelling Practice:** Have students practice spelling the words as a class, in pairs, or in small groups. Say a word, and have students spell it aloud or write it. Or, using the transparency, point to an item and have students write the word.

7. **Themes for Discussion, Composition, Journals, and Portfolios:** Each lesson of *Word by Word* provides one or more questions for discussion and composition. (These can be found in a blue-shaded area at the bottom of the page.) Have students respond to the questions as a class, in pairs, or in small groups. Or, have students write their responses at home, share their written work with other students, and discuss as a class, in pairs, or in small groups.

Students may enjoy keeping a journal of their written work. If time permits, you may want to write a response in each student's journal, sharing your own opinions and experiences as well as reacting to what the student has written. If you are keeping portfolios of students' work, these compositions serve as excellent examples of students' progress in learning English.

8. **Communication Activities:** The *Word by Word* Teacher's Guide and Lesson Planner with CD-ROM provides a wealth of games, tasks, brainstorming, discussion, movement, drawing, miming, role-playing, and other activities designed to take advantage of students' different learning styles and particular abilities and strengths. For each lesson, choose one or more of these activities to reinforce students' vocabulary learning in a way that is stimulating, creative, and enjoyable.

WORD BY WORD aims to offer students a communicative, meaningful, and lively way of practicing English vocabulary. In conveying to you the substance of our program, we hope that we have also conveyed the spirit: that learning vocabulary can be genuinely interactive . . . relevant to our students' lives . . . responsive to students' differing strengths and learning styles . . . and fun!
